

SCUBA DIVING

Catalina is considered a premier California dive site, with access from shore and by boat. In addition to the abundant kelp forest and marine life, there are shipwrecks to explore.

Catalina Falconry Experience

Experience the thrill and anticipation, as a trained bird of prey—with wings spread and talons extended—swoops toward you and gently lands on your outstretched hand. Get to know our falcons, hawks, and owls as your instructor guides you in the proper way to hold a raptor, cast it from your glove, and then call it back again. You'll also get the opportunity to have your picture taken with one of these majestic birds, so bring your camera.
